SPECTRA[®]

GEOSPATIAL

SPECTRA PRECISION ANNOUNCES NAME CHANGE TO REFLECT EVOLVING BUSINESS

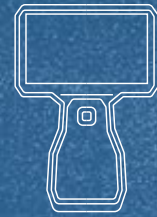

Spectra Precision announced the launch of a new brand identity and name for its survey and GIS suite of solutions. The organisation will now be known as Spectra[®] Geospatial. The brand includes a new logo and website www.spectrageospatial.com.

The new Spectra Geospatial brand builds upon the reputation and equity built under the previous Spectra Precision identity and now reflects the organisation's evolution of providing a broad range of solutions specifically focused on the geospatial industry.

"We've built a strong reputation for quality and innovation over the past 30 years. We are very proud to bring a new name and brand to the market that accurately reflects our customer and dedication to the industry," Olivier Casabianca, general manager of Spectra Geospatial.

NEW PRODUCTS FROM SPECTRA & SECO FOR 2019

Spectra SP20 GPS

The latest GNSS addition from Spectra, the SP20 is a rugged yet lightweight handheld GPS, easy-to-use and highly accurate. It is the optimal tool not only for cadastral, construction, or topo surveys, but also for a range of GIS projects, data collection, inspection and maintenance.

- Scalable GNSS Handheld accuracy from metre to cm
- Camera-enabled data collection
- GSM, WiFi and Bluetooth enabled

Spectra MobileMapper 60

Based on the MobileMapper50, the new MM60 offers superior durability, efficiency and accuracy for professional handheld data collection.

- High capacity battery
- Bright, high resolution 6-inch screen
- Military certifications, MIL-STD-810G
- GNSS receiver with SBAS support
- Wi-Fi, Bluetooth and 4G LTE cellular data

Spectra ST10 Ruggedised Tablet

The Spectra Geospatial ST10 is a field rugged tablet for land survey, geotechnical and construction. It includes a powerful processor and large screen so you can see your data like you have never seen it before.

- Large, 10.1 inch touch screen display
- 128GB Storage — more space to store all your data
- 4G Modem — stay connected and keep streaming
- Works with both Survey Pro and Layout Pro software

Seco Green Laser Tribrach

Taking laser plummets to a new level! Highly visible, in dark and also sunny, bright conditions, the new high precision green laser diode plummet from Seco features up to seven hours of continuous operation without battery charge or replacement! Ideal for work from tunnels to bridges.

- Laser dot size: 1.5mm over 1.5 meters
- Laser Class 1M
