

Accurate

Training & Education

About Us

ACCURATE OFFERS A WIDE RANGE OF TRAINING OPTIONS STARTING FROM BASIC PRODUCT KNOWLEDGE, RIGHT THROUGH TO EXTENSIVE THEORY AND PRACTICAL TRAINING.

Our training caters to a wide variety of industry sectors. The content we provide is recognised and relevant. We regularly update all our content and keep our trainer's knowledge up to date. The courses all focus strongly on Health & Safety procedures and guidelines, so you are working confidently and safely. We make every effort to assist you with any of your applications and answer any questions you have.

Our Industry trainers are based nationwide and training is available anywhere in New Zealand or we can utilise our training centres in either Auckland or Christchurch.

STANDARD COURSES > NOT LIMITED TO

- Cable Location
- Gas Detection
- Ground Penetrating Radar GPR
- Moisture Inspection
- Infrared Thermography

We can customise our courses to suit with combination courses also available.

INDUSTRY STAGE 1

Product Training

Demonstrate and detail key functions of the instrument.

INDUSTRY STAGE 2

Theoretical Training

In addition to product training, we include theory on the founding sciences and methodologies that relate to the instrument's main application.

INDUSTRY STAGE 3

Theory and Practical Training

This comprehensive module contains a combination of product and theory training but also incorporates practical training for on-site procedures.

NZ INDUSTRY AND ACADEMIA LEVELS 3 & 4 STATEMENT OF ATTAINMENT CERTIFICATION*

Accurate is proud to share a partnership with the ARA Institute of Canterbury. Together we can provide Skills for Industry Statement of Attainment Certificate Courses.

**Attainment is only available on some courses.*
