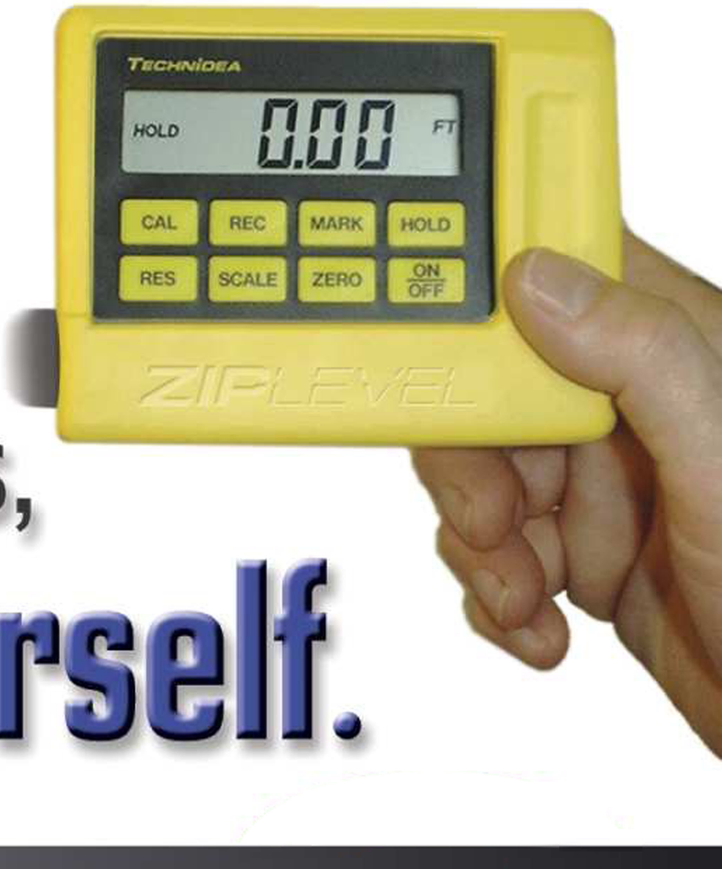
HIGH PRECISION ALTIMETER

REPLACES ROTARY LASERS

Set up in seconds, finish in minutes, ...by yourself.



ZIPLEVEL® PRO-2000

...works the way you think.

- planning
- designing
- excavating
- building
- inspecting
- repairing

MADE IN USA

TECHNIDEA™ CORPORATION

Unlike conventional levels, ***ZIP****LEVEL*® lets you level and read elevations directly in inches, feet or meters. NO MORE math, NO lasers, rods or tripods, NO line-of-sight or distance error, and NO factory calibration.

Enjoy tenth-inch precision over setup ranges of 40 vertical feet across a 200 foot circle and measure over unlimited ranges without calculations. High Precision function measures with paper-thin precision to 0.005". The job site rugged ***ZIP****LEVEL*® works in bone chilling **COLD** or scorching **HEAT** for up to a year of daily use on just one 9V battery.
